EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   Nov, 2022 – Present

Math Magicians — It contains a built in calculator and generates new quotes when the page loads or refreshes. Users will find it fun and interesting, especially those who like reading quotes and doing simple calculations.
- Built with: React

To-do-list — It is a project that allows users to list their activities for the day. It gives users the ability to update, check-out or delete the completed task. In this way, users stay organized and never forget to do important tasks.
- Built with: JavaScript, webpack, HTML and CSS

Leaderboard — It is a website application that sends and receives information to and from the API. Users may find it fun and helpful to record the names and scores of players to display on the leaderboard.
- Built with: JavaScript, webpack, HTML and CSS

GREENVIEW TUTORIAL   Johannesburg, South Africa
Tutor / Teaching   Feb, 2014 – Nov, 2019
- I coached college students in decision science and data analysis courses. Specializing in data manipulation using software such as R,Python,n and SQL database.

EDUCATION

MICROVERSE   Nov, 2022 – Present
Remote Full Stack Web Development Program, Full Time

- I spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF SOUTH AFRICA   Feb, 2009 – Nov, 2012
Degree, Statistics
- Thesis: The effectiveness of the job creation program and its association with unemployment, highest education, gender, and provinces using LogLinear analysis method.
